

Universe view and future societies

Part Two

Affecting property technology

In which

1. **Personality** of every individual
2. **by using** her or his own affecting property
3. **affects in**
4. **non physical natural scientific Essence (WVLSMFTA etc.) or constructional network of every natural being**
5. **for making aimed intellectual and physical changes**
6. **for aimed functional property or application.**

Brain's affecting property's technological capability
 by which the non- physical personality in her and his
relativity, and in long term,
 can make almost all needed intellectual and physical
 acts and changes,

- / in own body,
- / in other people's body and
- / In the nature and the universe

**Without any need to man made
 intellectual or physical
 Innovations.**

((((((((((((((O))))))))))))))))((((((((((((((O))))))))))))))))

The whole universe can be studied “ natural scientific”

without any man made

laws, values, mathematics,
technologies, aims etc.

.....

(here aim of two withouts **is not**

Without human engagement, It is rather,

without **Human interference**, in

“ natural scientific function of the natural beings

by

1. man made (WVLMSFTA etc. and

2- man made means among others like

-- Double - slit experiment, in quantum mechanics

-- CERN activities,

-- researches in hospitals with man made

intellectual and physical means.

Otherwise,

Every human being should take part in

researches and studies for her and his general natural sci-
entific development.

.....

thereby

So long studies are not without any human innovated
intellectual and physical means

they are not creation aimed natural scientific studies, like

- Like CERN particle accelerator, activities, or
- bubble slit experiment in quantum mechanics or
- studies in hospitals with man made means etc.)

Empirical realities made by man made means
are not natural scientific realities thereby
their studies are not natural scientific studies
they are man made studies with
man made intellectual and physical innovations.

Based on the point that, the universe is crated without
any man made means or help and

Therefore

the universe can be searched

without any man made means,

This study , follows the nature and search without
any man made means.

(((((((O)))))))((((((((O)))))))

II. Practicability and Falsification

Practicability of the view

Existing and functioning universe
Which is created and functions
Without any human help and
Without any man made means

Is

Natural scientifically an undeniable prove
For **practicability** of this view.

.....

.....

Falsification the view

Falsifying the view by proving that
Without human help or innovated means
The universe could not exists and function.

This prove natural scientifically is absolutely impossible
Because, the universe and body of denier has been
Existed before he or she becomes aware about her or his
existence in this universe. .

.....

III. Brain as source of innovations

**Brain's "pre innovation essence
(WVLSMFTA etc.) and property technology**

The brain has a **pre innovation** natural scientific existence and function. Thereby it should be used for **discovering** , natural scientific solutions , not man made innovations.

IV. Technology related to the industrial Revolution's development Dynamic

**/ Pre-Industrial Revolution
/ Industrial Revolution
/ Post-Industrial Revolution.**

The **development dynamic** as the **actual empirical** reality

in an industrial revolution is **undeniable**.

In the same way that humanity left behind, "Pre-Industrial Revolution" Societies,

In the same way,

humanity will leave behind the man-made Industrial Revolution Societies and enter into the Post man-made " Industrial Revolution Societies " namely

the Natural Scientific Societies with Natural Scientific WVLSMFTA etc.

Among them with Natural Scientific technology.

Falsifying

Those who claim that, there will not be any NS society with natural scientific technology, without any man made technology, in the future

They should among others, **prove that** there is not any industrial revolution.

But This falsifying is impossible, because,

All human industrial innovations are signs of this revolution.

.....

V. The Creation does not lack anything,

Based on 100 % of sciences which has constructed and
Given function, to universe,
And because of being 100 %
is perfect,
The creation doesn't lack anything.

But ,

Instead of trying for “ discovering” needed means and technologies etc. human being goes “ innovation way. Again but

- 1) Man-made technological WVLMSFTA etc. are not Natural Scientific WVLMSFTA etc.**

2) The human body's Properties as different means and applications for human intellectual and physical activities are not NS too.

Human intellectual, technological etc. development
Will leave behind man made societies and
Will enter NS societies without man made technology etc.

In the same way that

- a. all human properties are created **without** any human or any man-made means,
- b. all creation activities, all the time are **without** any human help or man-made means

In the same way

The human can do all her or his activities without any man-made means

For example

Flying without airplanes,
both with the physical body and
without the physical body by
everybody's Non-physical Personality.

.....

3. Replacing steps, of the man made technology with Natural scientific technology

- 1. Continued using of existing innovation but**
- 2. At the same time searching for, discovering needed NS means

3.1 Natural Scientific ” Housing WVLMSFTA etc. ”

Natural Scientific “ housing,” for example.

/ atomic essence housing, ,
/ plants' essence housing,
/ insects' essence housing, ----
/ birds' essence housing, ----
/ animal essence housing, ----
/ human essence housing ----

The physical body of every creature is its, her, his
essence’s house.

Every one of these bodies or houses are
/ Natural Scientific with many dimensions,
among others, WVLMSFTA etc.

By the physical body of every natural creature,
the MEP teaches mankind, among others,
Atomic housing mathematics and technology,
Plants' housing mathematics and technology,
Insects' housing mathematics and technology,
Birds' housing mathematics and technology,
Animal housing mathematics and technology,
Human housing mathematics and technology.

**Why this study uses the term “ housing “ in the case
of natural creatures?**

According to this study,

Every creature consists of two main parts related to
the matter and non-matter,

1 the non-material essence or

WVLMSFTA etc.

2 the materialised essence or physical
body of these WVLMSFTA etc..

This study names the physical body of the
WVLMSFTA etc. as

the " house of this essence" of the creature.

.....

Related to the man-made buildings,

Obs. By refusing among others man made housing,

The aim is not man made "jungle life"

it is rather

" natural scientific life" namely

Thinking , talking, acting , living natural scientific

In the same way that

the creation has built all

the NS buildings of the creatures,

In the same way

the creation could build even man-made buildings

but, it has not happened.

why ?

According to this study, because, all man-made are

de – naturalizations of the creation-aimed means

and societies that creation has aimed to exist.

From the easiest innovated unnatural spoon and fork

which **creates an unnatural nutrition culture,**

(by mixing different nutrition articles in an

un – natural scientifically way)

with all diseases health problems as a result,

to the mobile, internet, laser surgery technologies etc.

.....

by not discovering and not using for ex. natural scientific ” communication technology, surgery technology etc. losses humanity related sciences.

Main causes for building man made buildings, rooms, houses etc.

for saving the human from namely warmth, cold, insects etc. the nature has its own way of doing that. **without any need** to have a house or electric means for producing heat or cold etc. the human can produce the needed means in “ natural scientific way” without any need for man-made means.

How ?

In the same way that,

The sun without human help, produces an unaccountable amount of light, warmth, energy etc. or the creation, produces wind, storm, ice, mountains etc.

In the same way

the human can produce warmth, cold etc. in every needed level and size.

What is lacking in the first hand is, starting and developing a natural scientific discovery technology.

Falsifying

those who reject

the producing needed means by using

- a. a human non-physical intellectual power
- b. human properties (applications) like an affecting property and
- c. non-physical chemistry etc. formulas for heath, cold etc. they should falsify nature's activities in the mentioned points, which are without the human and man-made means.

In other words

they should . natural scientifically, reject existence of the sun, the ice mountains etc. this, not being able for , natural scientifically **falsifying** mentioned NS technologies for producing heat, cold, wind etc. is a **paradox** which

rejects the “ negation view “ of rejecters and **proves** the “ rightness” of the rejected points.

3.2 Natural Scientific Transport , Essence Technology

In the case of human movement by car and airplane and transporting different products to other places.

It is the same as the case of man-made buildings, in this case the human can do the needed acts without any need to use the man-made means, for example

3.2.1 Human physical flight without any man-made means. the Testability of the view

In the same way that

the earth with its **un - accountable weight** moves in the sky,

In the same way

the human with maximum 200 kilos
has the undeniable possibility of flying
without any man-made means like the airplane, which
means “ **physical flight** “ without the airplane is possible,
this possibility is, among others,
in the largeness and greatness of the earth weight.

Falsifying the view

Based on this point that,
among others, the earth moves in the sky
without any man-made means like the airplane,
they should falsify, existence of the earth as
natural scientific proves for possibility of human flight
without any man made means. Because so long the earth
is existing,

they can't claim that
physical flight , without man made means is impossible.

The Paradox

This impossibility of rejection of the earth's existence,
becomes a paradox which **rejects** their own view and
verifies , the point they reject, namely
Problem solving is universal, for example Human flight.
In finding “ the human physical flight formula”
if the numbers of all humanity are 8 000 000 000 individuals,
all can tackle the part in finding the formula and

**when around 8 000 000 000 brains and minds think of
a formula, they can find it in few seconds,
even not some minutes.**

It will be the same with all other needed NS means.

Three evaluation means

A. Unimaginable

Establishing a NS society without any man-made means is unimaginable for the absolute majority of the present people, but .

B. Undeniable

It is undeniable that all man-made societies are not natural and thereby they are irrelevant to the human body and the nature.

C. The only way

based on the "irrelevance" of the man-made means, the only way to go is leaving behind the man-made means and trying to discover NS means.

.....

3.2.2 The Non-Physical Personality of every individual

can be everywhere in the universe and does not need to fly because the Personality is not physical thereby, she or he does not need to fly.

Again,
the Personality of everybody is not physical and one of the other developmental aims of the creation is, / **separating the personality** from the living physical body,

for
/ the non-physical Personality life.
Hereby
in the future
mankind will be able to **”separate”** the Personality
(even when he or she is not sleeping) from
the physical body, and
thereafter
she or he will be able and **can be everywhere** from
/ being inside an atom
to
/ being inside the sun and other planets,
again because of
/ the Personality being ” intellectual ”and
not physical,
the matter, heat, cold, hardness, etc.
can't be any hindrance in
the presence of the Personality
anywhere in the universe.
At the same time this non-physical Personality
can be stopped or helped by other Personalities.
Hereby
all man-made transport equipment,
in relation to the non-physical NS essence technique,
are irrelevant.

3.2.3 Natural scientific **Co – relation** **in following picture below between**

/ Every personality and her or his own body
/ every personality and other people
/ every personality and other natural beings

**Based on every creatures
Natural scientific Essence
(WVLMSFTA etc.) or software and
Natural scientific using of their properties.**

/ Personality's Non-physical thought, by using
/ Non physical different properties leads to
/ the aimed physical or intellectual acts and changes
in own body, in other people, other creatures.

.....

Thereby
**Humanity does not need any intellectual or physical
innovation**

Related to the thought behind every physical act in the case of the human, the whole universe and the DCDer behind the activities, this study has started with “ the thinking property” .

**Related to
the thinking property, awareness property, decision
making property,**

the creatures in the universe are in two groups

1. those with “ the thinking, awareness, decision making property like the human and
2. those without the thinking property, namely all other creatures in the universe.

Related to the transport, moving and activities,

A. In every individual's and the humanity level

all activities are materialised or physicalized forms of the “related thoughts“

for talking,

physical talking and its content with the voice, is the result of related thought in its content in the thinking world of every individual .

It is the same with all activities for ordinary people, (not brain damaged people).

B. In the Universal level,

Based on this point that,

- 1.The matter and non-material natural scientific laws

(by them physical creatures are constructed and function), are not “ aware of their own existence, because **neither** they have, the thinking, awareness, etc. properties **nor** they are these properties in these creatures.

Meanwhile

the whole universe including the human (before her or his thinking and awareness properties start their function)

are not aware of their own existence

at the same time,

the atom, cell, human body and brain and the whole universe are functioning.

This physical functioning is the materialised form of the “ creation's thought.”

Thereby,

all needed “ means” for physical activities can be discovered by non-physical “ thought and properties “

without any need for man-made means.

.....

3.2.4 The testability

of the non-physical thought and properties as DCDer and,

not having any need for “ man-made “ means for a natural scientific life.

A. The Individual Level

Every individual's activities are different tests for

the materialised forms of her or his thoughts related to the related act.

B. The Universe Level

all natural activities (not man-made activities) , are materialised forms of the “ creation thoughts” which are converted in physical body.

Falsifying the view

for rejecting the possibility of solving human problems without man-made means, the falsifiers, first of all, do reject the existence of the universe

because, the universe is created and functions without any human or any man-made means.

The point that they can't reject the existence of the universe becomes a paradox that rejects their view and verifies the view which they reject.

.....

3.3 Natural Scientific “Essence Communication Technology”

or

the Non-Physical Essence Internet , in the Home Universities and the Whole “ Universe University”.

There are two different Natural Scientific Empirical Realities and they are proof

for the Natural Scientific Communication's Essence Network or Internet

A. The NS Physical Proof

The existing physical universe and

the whole universe's communication or Internet network

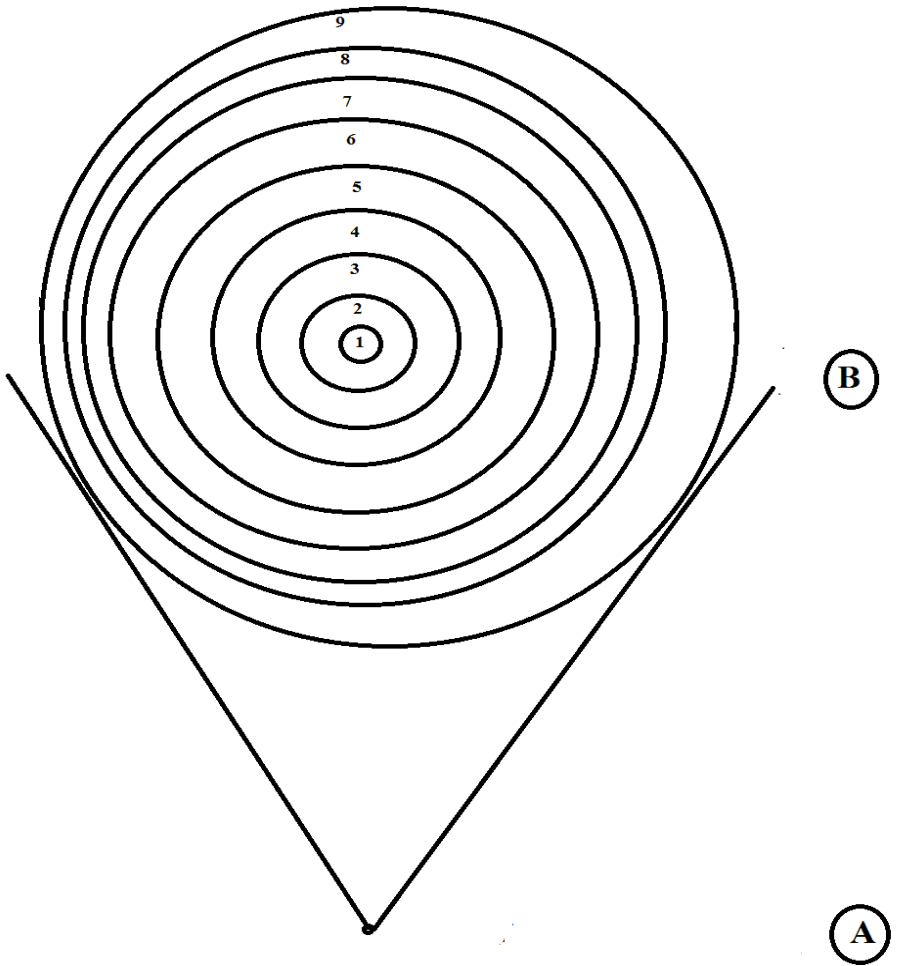

B. The NS Non - Physical Proof

which is the non-physical essence or "software" of the universe.

In the following picture,

Number 1 , Absolute Thought or the MEP is

The **Main** NS Essence or software and Property (application), of the whole existing universe.

**A. Non physical thought of the universe
in Zoom in position**

**B. Non physical thought of the universe
in Zoom out position**

Number 1 , As point “ A” or the Absolute thought or MEP is

The Main NS Essence and Property, or the software and the applications of the whole existing universe.

1. the Absolute Thought of the universe in zoom out position.
 - 2.first, yet unknown **pre**-quark and quark sign of the matter
 - 3.first particle and atom
 - 4.first living cell
 - 5.insects
 - 6.birds
 - 7.animals,
 - 8.the human being
 - 9.endless (for the human being) but one Creation thought
- of All other existing planets, universes etc. beyond the earth.

The Absolute Thought or thought of all universes, has no physical place, even in a zero point level but

by physicalizing and giving the physical body to the thoughts,
they become all existing physical universes in which is the **MEP** or Main Essence and Property, which leads all universes
(except with the thinking-brain-having creatures' activities)

Thereby
They can take place inside the MEP who is
The Main Non physical essence and property.

In this stage all creature and **the whole universe in function** are in an” **intellectual level .”**

The Non-Physical essence of the

first ,yet not discovered particles, beings and atom

The Non-Physical essence of the first living cell

The Non-Physical essence of the Insects

The Non-Physical essence of the Birds

The Non-Physical essence of the animals,

The Non-Physical essence of the human being

The Non-Physical essence of the Endless Spaces and the creatures in them, etc.

Choosing the NS Essence Communication Network means,

looking at , talking about, living with as a NS researcher.

But man-made connections and communication
with its own body and nature,

because of not being NS,

have resulted in

the existing diseases and sufferings for the human and
damaging even ” the breathing air” in the nature.

In General,

in the human activities, only activities which are conscious or unconscious NS, they are the right activities.

As an example,
In the case of plants and
plant communication technology,
every plant has its own network system
/ their roots are inside the earth,
with a connection network to all creatures,
/ inside the earth,
/ on the earth and
/ above the earth, in the skies.

Thereby, for example,
/ by receiving " waves from the air and around them-
selves",
they function as an antenna in communication and
/ by receiving waves from inside the earth,
they function as, among others, a Seismometer for
warning the mankind for earthquakes etc.

Related to the human communication

By,
/thinking or speaking beside or touching a plant or tree,
/ thinking, speaking and touching physical waves,
reaching to the body of the physical tree or plant and
/ by pushing in that,
/one can transfer the message to them and
thereby
/ to the network of the trees and the earth,
for the aimed person or
in searching or seeking after something,
in or above the earth or universe.

Even through, in the case of " the earth, " by using the es-
sence network of the earth, people can

have communication with each other. In this case,

The first starting point is,

1. Discovering the earth's WLIMSFTAC, etc.

. communication network,

2 Thinking, looking and touching the earth in
"the natural scientific way," Thereby,

Entering into, among others, the Mathematical networks
of the earth, Structural networks of the earth

Functional networks of the earth Technological networks
of the earth. etc.

After knowing about and learning the above mentioned
networks, mankind's communication, through them will
be very easy.

.....

The testability of the NS Communication Network

Every essence (WVLMSFTA etc.) of every creature
is its " non-physical communication network " and
every physical body
is the "materialised network of the related essence. "

Falsifying the view

the falsifiers do reject again the existence of the whole
universe ,

because, all the universe is functioning and all the time
there is communication between
the atoms, cells, creatures etc.

without any need for man-made means.

The point is that
the falsifiers can't reject the existence of the universe,
it becomes a paradox that

rejects their own views and
verifies the view which they reject.

.....

3. 4. Medical treatments of the Physical Body

Hospitals as an example

In the same way that,

Different organs of every patient and surgeons,

themselves are created

/ without surgeons and

/ without all human innovated surgery means

In the same way

Can all diseases be treated without

Any man made means.

The first point to do is,

To Replace, man made innovation way of studies and activities with NS discovery solution way of studies and activities. At the same time, man made Intellectual and physical innovations, can be used as a bridge between

Present time, societies and future's NS societies

Which will be without them..

.....

Every natural creature is a written book By finding its natural scientific alphabet, can people read them like a man-made book. Every creature is constructed and functions according to its, her or his essence or WVLMSFTA etc. By learning the essence of the creature, changes can be made. For example, in the case of the human brain, based on the brain's WVLMSFTA etc. everybody can even treat her or his own brain without any need for man-made means, for example Laser Technology etc .

The treating process,

/the **non-material** Personality

/ by using different properties

/ for being, (not going because the Personality is not physical, by willing to be somewhere immediately, the Personality is there) inside the aimed cell or part etc. and / knowing the essence or WVLMSFTA etc. of the related subject, and/ by controlling the construction of the **non-physical** essence of the aimed point or seeking after and

Thereafter the Personality,

/ can find the **physical** damaged point in the structural construction **in** the form of

/ lacking something or
/ something being in excess or
/ being damaged etc.

thereafter the Personality

/ can affect the physical part and **compensate for the** lacking or excess in the body , by using his or her “ affecting property power “ as a surgery means.

Comparing between man-made and NS surgery.

Man-made laser surgery,

1. The surgeon with his or her physical body uses man-made means

and makes the desired changes in the aimed point

2. The natural scientific surgeon, by his or her “ own Personality “ and

by using his or her own non-physical “ affecting property “ makes the desired change by his or her affecting property. Without any need of the man-made laser or other technologies.

Observation

This proof for this “**thought surgery** “ by the affecting property, among endless others, are human activities in which every act of everybody

is the result of her or his “ thought “ about something, for example, talking, going, working etc. in which

the non-physical Personality of every individual, by

using the non-physical “ affecting property “ affects in the physical body and does the desired physical act.

In this way ,

Everybody can treat even herself or himself even by doing surgery on his or her own brain.

((((((((O)))))))(((((((((O)))))))))

Practicability of this view

In the same way

that, particles, atoms, cells,
human brain and the whole universe are created
without human help, man made innovations

In the same way,

Particle, atom, cell, human brain
and the whole universe
can be searched, treated and all natural problems
solved

without any man made means.

Falsification

Those who deny this view,
They should prove that, without human being,
There was, no particle, no atom, no cell,
no human brain and no universe.

This falsification is absolutely impossible because
Every human being, in the birth time, not only
Is not aware about existence of other
beings in the universe,

He or she is even unaware about her and
his own existence

Thereby, people whose body and the uni-
verse has been existed before their awareness
about their existence in this universe,

Can't falsify creation of the universe without man made means and thereby
Can't natural scientifically negate,
Non physical way of treating diseases,
Solving problems etc. without man made
Means. Again the whole universe is
Created without man made means.

((((((((O)))))))(((((((((O)))))))))

Summary technology

I. Starting point

In the same way that,

the whole **natural** universe including human being
has been created, **without** any human help or any
man made innovation

In the same way, can

The whole universe can be studied and problems
Can be solved “ natural scientifically”
without any man made laws, values, mathematic,
technologies, aims etc. thereby

So long studies and activities including technological,
are not without any human innovated
intellectual and physical means **are not creation**
aimed natural scientific studies.

.....

II.. Choosing way of research and study

In the same way that,

the whole natural universe has been created,
from, not discovered beings,
to , discovered particle, atom, cell, human brain etc.
without any man made WVLMSFTA etc., and

In the same way that

The universe **functions**,
Without any man made means

In the same way,

the creation's WVLMSFTA etc.
both physically and non – physically
can be studied and used for researches,
both in **micro** and **macro** levels
without any man made means.
because again all natural beings
are created without any man made means.

Thereby

**If the aim of study is a natural scientific study,
it should be based on**

Non physical Essence (WVLMSFTA etc.) and
property network.

@ general constructional [network@.](#)

The second @ here is because of

NS co – relation between

1. different network /s dimensions inside the essence or WVLSMFTA etc. or
2. Between networks of different, atoms, cells, People, plants, birds, animals etc.)
the related being/ s.

General network of every natural scientific being is

among others WVLSMFTA etc. in which

W = will behind creation of related being,

Value = Value behind

L = physical, chemistry biological etc. laws

M = Mathematics used for construction

S = structure of the related being

F = function of

T = technology, like atom, cell, plant etc. technologies

A = creationa aim of related being etc.

Thereby

basing the study only on, for example mathematics,
is nothing less than going astray in the study both
in micro and macro levels of the universe.

.....

There is not any doubt at all in usefulness of many of these man made means which among others, stop suffering of patients. But for avoiding all these diseases, and problems humanity should change her and his TAVDA (thinking, awareness, volition, deciding and acting) from the man made to the natural scientific because, essence (

WVLSMFTA etc.) of human body and nature are natural scientific .

Thereby,

humanity can change

/ the **man made innovation** technology to

/ the natural scientific **discovery** technology.

In addition

/ By home university – zation of the homes,
everybody becomes a NS researcher

With NS thinking, looking, talking, acting and living,

For natural scientifically, better and better living

Without any need to the man made intellectual or
physical, means, societies and living forms,

with among others Co vid 19 with all its damages
in 2020 , as its results.

Technology is one of dimensions of the human and nature's essence (WVLSMFTA etc.) .thereby, among others

“ Will” related to technology should be NS

“ laws “

“ Mathematics

“ Aim “

And correlation between

. . a. essence dimensions of every creature and

b. their co-relations with other phenomenons
should be as well NS.

In the case of human innovated means,

From physical part of the innovated means

To many different dimensions are not NS.

.....

III.. Brains Affecting property technology

Related to

/ **Own body**

/ **Other people**

/ **Other creatures**

In the same way that,

Everybody , through affecting property
Makes intellectual and physical changes like,
Intellectual changes in ideas, views etc.and
Physical changes, like going, sitting, doing
something and changing what so ever and

In the same way that

All changes, in micro and macro levels of the
universe, happens without their awareness
by the **Main Affecting property**

In addition

In the same way,

Everybody has possibility of

1.. Related to her or his own body

make both intellectual and

Physical changes for ex. in

/ WVLMSFTA of for ex. a cell or

/ physical cell,

2.. related to other people and

3. Related to other beings in the universe,

Human can Do same intellectual and physi-
cal changes.

As it happens endless, cutting and connecting,

Birth and death of cells etc.
/ in human body and
/ in the whole universe

without human and universe's awareness.

This intellectual and physical affecting and changing
Exists in every day life of every individual.

The first point for starting the process is

Discovering, the way that
How does the main “ Affecting property”
Or the MEP

affect and make physical and intellectual
Changes in human body and nature.

There after,

/ **Not only**

everybody can make needed
Changes in own body,
For ex. In own brain by
being her or his own surgeon
by

“ **affecting property**” as her or his

Surgical knife and forceps
make needed surgeries in own brain

/ **even**

can do same surgery in brains of
Other people

/ **other changes**

in other beings,
both in micro universe and macro
universe of other beings.

First needed mean is discovering

how, personality can
act without physical body ?.

Thereafter,

Non physical personality of everybody

Can be inside every creature and wherever of the universe, from

/ **not discovered pre quark** beings

/ to quark, atom, cell, earth and even middle of the Sun,

because, of not having physical body with personality.

.....

Practicability of these view is

Existing and functioning universe

Which is created and functions

Without any human help and

Without any man made means

Falsification the view

Falsifying the view by

proving that

Without human help or means

The universe could not exists

and function..

.....

Three last basis of reasoning

1. Unimabinability

Establishing natural scientific societies and
living a natural scientific life without
Any human innovated intellectual or physical
means,

Seems to be unimaginable but

2. Undeniability

It is undeniable, that
Man made innovations are not
Natural scientific means and

Based on this

being “ un – natural scientific”
all man makes
are no creation
aimed means.

3. the only way to go is

Natural scientific discovery way
Of problem solving and developing.

.....

.....
